Informing the Strategic Priorities of Extension: A Community Engagement Strategy

Bo Beaulieu & Michael Wilcox
Purdue University

Presented at the 2015 Annual Meeting of the Community Development Society
August, 2015 --- Lexington, KY
A Brief Overview

• Dean of the College of Agriculture launched a new five-year strategic planning effort in Fall 2014.

• Extension wanted to weigh in on the substance of that plan. Opted to seek input and advice from stakeholders across the state.

• The most critical question at that point: “What process would we employ to capture the insights of Indiana residents?”

• Decided to embrace a series of community forums across the state.
The Steps

1. Location of Forums
2. Forum Methodology
3. Who to Invite
4. Key Forum Roles
5. Getting Ready
6. Host Forums
7. Communicate Results

College of Agriculture
1. Location of Forums

- Five Extension Districts in Indiana
- District Directors asked to Recommend Four Sites in their Districts
- Opted to have one additional forum in the Indianapolis area, the largest city in the state
- End result – plans to host 21 Extension forums
- This complemented the 6 listening sessions hosted by the Dean of Agriculture in 6 urban sites.
Map of the 21 Community Forum Locations
2. Forum Methodology

• Employed the World Café Format

• Four rounds over the course of the meeting

• People asked rotate to different tables for 3 of the 4 rounds

• Highly interactive process
3. Who to Invite

“We have named these ‘Community Forums’ for a reason. They should fairly represent your community. When thinking about whom to invite, consider a diverse reflection of those who call your area home. This means a healthy blend of current core stakeholders and those who may have less experience with, or knowledge of, Purdue Extension. . . “

Jason Henderson
Director, Purdue Extension
Proposed Forum Invitees:

- Business & Industry
- Local & Regional Governments
- Educational Leaders
- Nonprofit & Voluntary (Civic) Groups
- State & Federal reps.
- Extension stakeholders
- Community Foundation
- Faith-Based Groups
- Local Residents, including underserved groups

Please Join Us.
4. Key Forum Roles

- Forum Facilitator
- Table Facilitator
- Table Recorder and Reporter
- Roundtable Participants
5. Getting Ready: Forum Facilitator Training

Overview of the Forum Format

The Four Roundtable Sessions

Closing Comments
The Roundtable Sessions

Round 1
• Children, Youth & Families

Round 2
• Digging Deeper into the Top Issues from Round 1

Round 3
• Community, Economy, Agriculture & Natural Resources

Round 4
• Digging Deeper into the Top Issues from Round 3
7. Communicate Results

COMMUNITY FORUMS
Statewide Feedback Report

Whenever an organization considers how to enhance and evolve, it must engage those whom it serves. Nothing rivals firsthand, unfettered responses to what you do well, what you can improve, and initiatives people want to see.

That’s why I’d like to thank the nearly 800 of you who made time earlier this year to attend one of 21 Purdue Extension Community Forums or one of six Dean’s Listening Sessions held throughout Indiana.

These gatherings helped Purdue Extension and Purdue University’s College of Agriculture strengthen ties to current stakeholders, reach fresh faces to teach new audiences, and guide forthcoming five-year strategic plans for both Extension and the College of Agriculture.

We asked for bold, honest, and big, and you delivered. Your votes and voices are the soul of this document, which identifies the most common issues, action items, activities, and initiatives identified statewide in the categories of Children, Youth, and Family and Community, Economy, Agriculture, and Natural Resources.

You will also receive a timeline of the strategic planning work that we are continuing to pursue in the College of Agriculture and Purdue Extension. Our strategic plans, when finalized, will honor the important insights and exciting ideas captured during the course of the Community Forums and Listening Sessions.

Thank you, we will continue to strive to make Purdue Extension and the College of Agriculture a vibrant, responsive, and valuable resource to the people of Indiana, our nation, and our world.

Sincerely,

[Signature]

Jason Henderson
Director of Purdue Extension
Associate Dean, Purdue University College of Agriculture

The Community Forums and Dean’s Listening Sessions were held in 27 sites across Indiana and gathered the insights of nearly 800 residents.

Children, Youth & Family

**TWO POWERFUL, OVERARCHING THEMES EMERGED**

1. **Education for all ages**
2. **Enhancing the quality of life**

---

**TOP FIVE PRIORITY ISSUES & ACTION ITEMS**

- **Strengthening Families**
  - Establish a firm, positive sense of communication and connectedness.
  - Encourage families to make time for meals and activities together.
  - Promote the benefits of family engagement and family stability.
  - Ensure that all families understand the economics involved in supporting themselves.

- **Building Effective Parenting Skills**
  - Teach youth about the importance of responsibility and a strong work ethic.
  - Provide education in a wide range of parenting skills, including:
    - Strong family communication
    - Help to reinforce children and family goals
    - Childcare
    - Budgeting for healthy home nutrition
    - How to be an effective role model

- **Supporting Career Preparation**
  - Equip and empower teenagers for life after high school.
  - Emphasize the importance of vocational skills and help all ages prepare for those skills.
  - Offer education for all ages on successfully finding jobs by addressing applications, resumes, and interviews.
  - Assert the value of entrepreneurship and facilitate it through education whenever possible.
  - Educate all ages on how to facilitate, and leverage, finances for education.

- **Promoting Healthy Living**
  - Reinforce the importance of healthy living through education that addresses:
    - Physical wellness
    - Proper nutrition
    - Mental wellbeing
    - The importance of hygiene

- **Enhancing Positive Life Skills**
  - Provide education that facilitates:
    - Conflict resolution
    - Respect
    - Decision-making
    - Strong work ethic
    - The importance of leadership
    - Role modeling
    - Mentoring

---

**COMMUNITY, ECONOMY, AGRICULTURE & NATURAL RESOURCES**

**TOP FIVE PRIORITY ISSUES & ACTION ITEMS**

- **Strengthening Workforce, Business, and Economic Development**
  - Convey a continuum of the economic system — from employees to employers to the economy.
  - Enhance job readiness skills such as soft skills, resume writing, landing the job, and work ethic.
  - Strengthen workforce development opportunities, such as occupational training and talent retention.
  - Foster opportunities for local business development and entrepreneurship.

- **Expanding Agriculture-Related Opportunities**
  - Create programs that help improve the public’s perception of agriculture.
  - Embrace opportunities in diversified agriculture, such as sustainability, new crops, urban agriculture, local foods systems, small farms, beginning farmers, and agitourism.
  - Continue and expand farm succession planning efforts.

- **Fostering Responsible Land Use and Conservation of Resources**
  - Improve education in zoning regulations and ordinances to enhance community understanding.
  - Boost awareness of natural resources and how they relate to conservation and the environment.
  - Create programs to help maintain or improve soil health and the quality and availability of water resources.

- **Creating Quality Communities**
  - Design and deliver educational programs that emphasize the importance of quality places.
  - Focus on necessary infrastructure for quality places, such as trails, recreation, healthcare, roads, and policy options.

- **Increasing Civic Participation and Local Government Education**
  - Build strong partnerships to advance civic engagement, community pride, community collaboration, and leadership development.
  - Design educational programs that address property taxes, government regulations, and government finances.

---

**PURDUE EXTENSION ACTIVITIES / INITIATIVES TO CONSIDER**

- Establish new programs or strengthen existing programs to encourage monitoring, internships, apprenticeships, and role modeling.
- Create a series of classes, workshops, or other educational outlets to specifically address these issues — whether at group or individual level of instruction.
- Analyze or pursue collaborative partnerships with agencies, businesses, educational institutions, and nonprofit organizations to bring programs together and make programs available to all who need them.
- Encourage and equip residents with skills and techniques so they can advocate for systems or policy changes within their communities.
- Enhance marketing and communications efforts so the public is aware of new or existing programs.

---

**PURDUE EXTENSION ACTIVITIES / INITIATIVES TO CONSIDER**

- Focus on the tools or skills communities need to acquire resources (e.g., grant-writing programs).
- Create tools that address career exploration and mentoring.
- Partner with agencies, businesses, educational institutions, and nonprofit organizations.
- Encourage networking and connecting people to resources and resource centers.
- Build local media presence to connect more consistently, naturally, and consistently with clientele.
- Facilitate community forums to encourage public deliberation on these issues.
- Leverage existing Extension programs (i.e., Master Gardeners or 4-H) in ways that address these issues.
- Pursue a role in incubating innovations and create/expand programs on marketing.
- Promote field trips and tours related to both agriculture and jobs/economic opportunity.
- Look beyond Purdue University’s colleges of Agriculture, Health & Human Sciences, and Veterinary Medicine to connect more broadly — and as strongly — with additional Purdue University partners.
What’s Ahead?

• Extension Leadership Team will generate key subject matter topics under each of the 10 priorities (up to five).

• Extension specialists/educators will then weigh in.

• Annual Extension Conference: Major focus will be on the 10 forum themes and 5 subject matter topics. Participants will select TWO areas under each theme to launch in the next 1-2 years. Other priorities to be undertaken in the future.

• Broad-based teams will be organized by these subject matter topics. Funds will be provided to support their work on these priorities.
Thank You
